# Special Support Teaching Plan

## Part-A

Suggestive plan to work for grade 3 core competencies is mentioned below. The activities mentioned in the plan can be modified based on the need and learning level of students. Teacher can also add any other activity and can introduce other concept which is missing in the plan. Material to be used while doing the activity is attached in annexure.

While working on the plan, teacher can use the practice and assessment worksheet designed against concepts. However, if teacher feels that more practice is required then teacher can design more worksheet and can also give copy work.

#### **Match up activity:**(Reading task)

Students will be working in groups. Each group will be given a set of cr, br, and bl words and picture cards. Each group has to match picture with the word in designated time. Once they are done they will read each word. If they struggle other students and teacher will provide the support.

Arrange the word in logical sequence: students will do this task as a home assignment.

corecold, worc, rbaelect, crnae

#### **Reading comprehension: Boy named Chirag**

Listen to read

L3/R7/F2

Read to some one

Read to self

#### **Understanding "Wh" question form:**

Help students to understand the use of who, what, where, why and How through flash cards, game and story.

<b>Who</b>	<b>What</b>	<b>Where</b>	<b>Why</b>	<b>How</b>
is a person	is a thing or an action	is a place something	is the reason or the way	is a number, the way

#### **Game: Wh- word Tic- Tac- Toe (Two players game)**

Step 1- Teacher will call one student and ask him/her to fill in the correct Wh word. If they fill correct word and answer the question, cross out the box.

Step -2 Player A will ask the question and player B will answer.

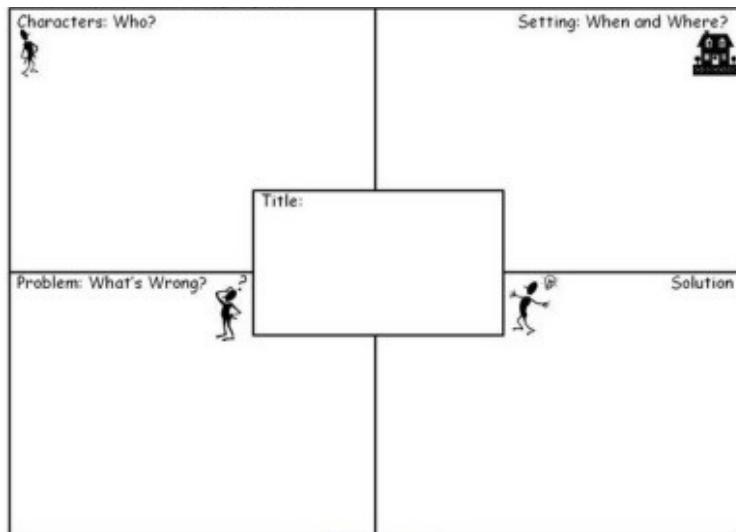

**Note:** Teacher can draw this activity on the board and ask students to copy the same in their note books.

----- is your name?	----- do you live?	----- is your book
----- is in your family?	----- is your favorite color?	----- is your best friend?
----- is your Math teacher?	----- do you go to school?	----- are you?

**Story map:** A story map is a strategy that uses graphic organizer to help students learn the elements of a story. By identifying story characters, setting, plot, problem and solution. While doing this activity draw learner attention to Wh question.

Discuss the main components of a story. Provide each student with a blank story elements graphic organizer and model how to complete it.

As students read, have them complete the story elements map. After reading, they should fill in any missing parts.

### After the readings

#### Discussion:

Why did Chirag's friend called him a cranky boy?

#### Introduction of cl blend and review of cr blend:

In this lesson we are focusing on 3 concepts “Cl” sounds, use of this, these and singular and plural.

**Introduction:** Lesson will start with the introduction of cl sounds. Show the flashcard of clock and ask what is this? This is a clock. Once they say clock write clock on the board. Show the picture of clocks and ask what are these? These are clocks. Write clocks against the clock. Similarly use this procedure to demonstrate other variables.

If students struggle, go through eliciting steps:

Ask everyone

Ask 1 student

Ask others to help them

Give hints until word is revealed

#### Singular and Plural:

After this activity teacher will underline s letter from all the nouns. Ask students to observe the difference between both words with an “s” or without an “s.”

#### Add “S”:

Teach the students that there are two ways of making plural the most common way to form a plural, is to put an “s” at the end of the word, then to make this point clear, say each word pair in the exercise at last twice and have the children repeat the word after you. After each word you can emphasize the difference in meaning between the two words ( You may use flash card of cl words)

**Singular - Nouns are singular when they refer to just one person, place, and thing**

**Example: clip clock clown**

**Plural - Nouns are plural when they refer to two or more people, places, and things**

**Example: clips clocks clowns**

#### Add “es”:

Make clear to your student, that not all plural forms are created by adding “s” to the end. Words that are very difficult to pronounce with simple an “s” at the end, instead, get an ‘es’ at the end. Give an example of the word ‘Bus’, and ask them to read the word. You can also give them other examples , like “Match”- “Matches”, etc.

**Nouns that end in -ch, x, s, z or s- o like sounds, however, will require an es for the plural:**

- **more than one latch = latches**
- **more than one box = boxes**
- **more than one glass = glasses**
- **more than one bus = buses**
- **more than one tomato= tomatoes**

L3/PW5/F2

#### Activity: Parallel line

Divide the students into two teams, name them singular and plural. They will stand in parallel line. Singular will start the game by saying a name of singular thing, place or person; plural team will say the word by adding s or es after the word.

First they will use all the variables, and once they are done, you may use other words.

#### Introduction of This and These:

Write the following dialogue on the board.

**A: What is this?**

**B: This is a clock.**

**C: What are these?**

**D: These are clocks.**

Underline the demonstrative pronoun “This” and “These” ask student to observe the structure of both sentences. Divide them in small groups and ask them to talk about the differences they noticed in both sentences.

Teacher will tell the student the major difference between both words.

**The only difference is that "these words" is plural and "this word" is singular. So if you are referring to one word, use "this word". If you are referring to several words, use "these words."**

Recite all four lines of the core dialogue once:

Repeat this process with the rest of the pictures/ variables.

Make sure repeat lines 1-2 once after each word.

Write all the lines on the board and leave the word in line e.g

A: What is this?

B: This is-----.

C: What are these?

B: These are.....

### **That/ those**

Note: students have already learnt usage of that and those. Teacher may review the concept by giving practice.

### **Review the concept Cr and Cl**

**Game:** Touch the wall

- post the paper written "cr" and "cl" on the wall
- Split the class into 2 teams
- Demonstrate the game, each student must pick out a word written on a scrap of paper out of a bag/hat and correctly recite the word with another team member. If s/he says right gets 1 point

Annexure  
1:4 and 1:3

Teacher invite 1 student from each team and says the word 'crab', Students as they hear the word, will run fast and touch the blend sounds either Cr or Cl. If they do right get 1 point. Each student has chances to score two points. One for recognizing word and another point for touch the correct sound wall.

- Teacher makes sure to give all students a chance in the order that they are seated to keep better track of whose turn it is.

### **Reading comprehension:**

- Listen to read: Teacher will read and summarize the text.
- Read to some one: Retell to their partner what is happening in the text

L3/PW6/F2  
L3/R8/F2

### **Read to self:**

- 1- Focusing on non-familiar words. Try to get their meaning using clues.
- 2- Read all the highlighted words

## Fran Goes to the Prom

Written by Susan Hartley  
Illustrated by Fred Volke

Fran must go to the frog prom.  
But Fran does not have a dress with frills.  
Her dress is drab.

Fran's stepmom will not let  
her go to the prom.  
She has jobs for her to do.  
Fran has to dust the steps.  
Fran has to make grits  
and grill crab.

Fran's stepmom  
does not want Fran to go  
to the prom.  
"You cannot go to the prom  
unless you do your jobs."  
she snapped.

Fran was sad.  
Just then Fran saw a slim, trim, magic man.  
"I am Brad the magic man," he said with a grin.  
"I will get you to the frog prom."

With a slip and a slap,  
Brad did the jobs.  
He dusted the steps.  
He made the grits and grilled crab.

"But my slippers are too drab.

They are a drag," said Fran.

Brad grabbed the slippers.

With a spit and a spin, he made new red slippers.

"I love the dress," grinned Fran.

"But how will I get to the prom?"

Brad got a grip on a drill.

With a snip and a snap, he made a box into a sled.

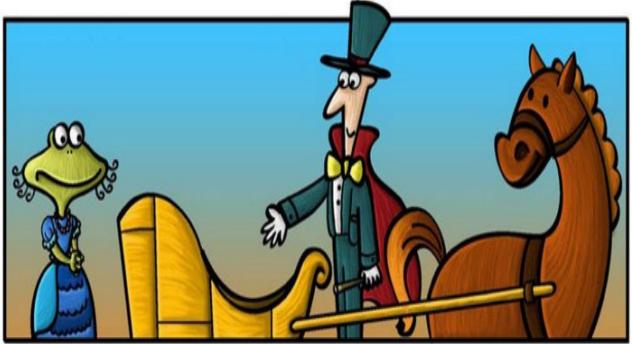

Brad grabbed the cat.

With a slip and a slap,

Brad made the cat into a horse.

The horse trotted up to the sled.

"You will take a trip to the prom  
on this sled," Brad said.

"Have a fun trip."

"You must be home at  
ten past ten," Brad said.

"If you are not, the sled  
will be a box.

The horse will be a cat.

Your dress will be a rag."

Fran was off on a trip to the frog prom.

It was not a drag.

And it was the best frog prom ever!
